ALBUM WISHES IN LOCKDOWN

**A contemporary masterpiece
by Tiago Ferigoli**

SAO PAULO | BRAZIL | release date: 04/15/2022

The album *Wishes in lockdown* was written, produced, mixed and mastered by musician and filmmaker Tiago Ferigoli. A contemporary work, produced during the isolation of the pandemic.

The album's tracks were inspired by desires that were repressed during the lockdown. This album is proof of how human beings are capable of reinventing themselves and producing quality art with the resources we have available today. An exclusive album that is not tied to traditional melodic structures, mixing different textures, different instruments, different musical styles, but without losing harmony. An album meticulously studied to be contemporary, exciting and good vibes. An album that inspires freedom of expression.

The entire album was produced in home studio using Propellerhead Software's Reason DAW, mixed and mastered with the help of Izotope's VST package and digitally distributed by CD Baby Publishing.

THE COMPOSER

Tiago Ferigoli, Brazilian artist is a Filmmaker, Digital Artist, Music Maker, Sound Designer and Producer. Lover of cinema, music, technology, sports and travel. With a mind set on the future, he is always looking for novelties, new ways of expressing himself and new creative languages.
